From reports to scan sheets, the need to generate PDF files has been present in every line-of-business application I've ever worked on. In the past, I've used a variety of tools to achieve this such as SQL Server Reporting Services or Telerik Reporting. While these kinds of tools work well enough for generating reports straight from the database, it's been surprising how few resources ...

Thread.Sleep(0) relinquishes the thread's current time slice immediately, voluntarily handing over the CPU to other threads. Framework 4.0's new Thread.Yield() method does the same thing except that it relinquishes only to threads running on the same processor.. Sleep(0) or Yield is occasionally useful in production code for advanced performance tweaks.
