Contains the electronic versions of 80 books previously published in hard copy as part of the Country Studies Series by the Federal Research Division. Intended for a general audience, books in the series present a description and analysis of the historical setting and the social, economic, political, and national security systems and institutions of select countries throughout the world.

About this Collection | Country Studies | Digital

The Population Program produces Florida's official city, county and state population estimates each year. It also produces population projections by age, sex, race and Hispanic origin for the state and each county. Staff members conduct research on the accuracy of population estimates and projections, seasonal migration, the effects of hurricanes on population growth and a variety of other ...

Government economic security programs such as food assistance, housing subsidies, and working-family tax credits "which bolster income, help families afford basic needs, and keep millions of children above the poverty line" also have longer-term benefits, studies find: they help children to do better in school and increase their earning power in their adult years.

Economic Security Programs Help Low-Income Children

The economy of India is a developing mixed economy. It is the world's sixth-largest economy by nominal GDP and the third-largest by purchasing power parity (PPP). The country ranks 139th in per capita GDP (nominal) with \$2,134 and 122nd in per capita GDP (PPP) with \$7,783 as of 2018. After the 1991 economic liberalisation, India achieved 6-7% average GDP growth annually.
