### **Aircraft carrier Akagi and Kaga**

Conversion of Kaga was launched in 1925 and completed on 31 March 1928. As completed, the ship had two hangar decks, the hangars opened onto two superimposed flying off decks at the bow. In theory, this permitted aircraft to take off directly from the hangars, while landing on the main flight deck above.

"Kaga (Japanese Aircraft Carrier, 1921-1942) Steams through heavy north Pacific seas, en route to attack Pearl Harbor, Hawaii, circa early December 1941. Carrier Zuikaku is at right. Frame from a motion picture film taken from the carrier Akagi.

### **Super Drawings in 3D No 31 The Japanese Aircraft Carrier**

Until the early 1940s, she was one of the biggest aircraft carriers of the Imperial Japanese Navy. Initially laid down as a battleship, she was redesigned during construction to become a carrier. The ship had good armor protection for her type, carried quite numerous air group and powerful secondary battery guns.

### **Kaga : Japanese Aircraft Carrier VII : World of Warships**

Concept/Program: First large purpose-built Japanese aircraft carrier; design was the basis for all later fleet carrier construction. The program originated as an "flight deck cruiser" designed to get around treaty restrictions, but the design became a full fleet carrier when the treaties were abrogated.
