### **Practical Critical Thinking**

Critical thinking - applied to the methodology of teaching mathematics 63 4. Use the language of mathematics to express mathematical ideas precisely. These ideas are very similar to those promoted by Fawcett in 1938. Little has changed in the mainstream ways that people tend to define critical thinking in the context of mathematics education.

### **Critical thinking - applied to the methodology of teaching**

explicit critical thinking skills, a disposition for effortful learning, transfer of training, and explicit and overt metacognitive monitoring. Metacognitive monitoring is familiar to us from Dewey's theories, and Halpern's critical thinking skills (e.g., synthesizing of information, reasoning) are also common to multiple other theories.
