

the art of botanical pdf

Botanical illustration is the art of depicting the form, color, and details of plant species, frequently in watercolor paintings. They must be scientifically accurate but often also have an artistic component and may be printed with a botanical description in books, magazines, and other media or sold as a work of art. Often composed in consultation with a scientific author, their creation ...

This week's email video art lesson uses ballpoint pen to explore the differences that set apart two geniuses of the avian world: the crow and the raven. Of more than 800 bird species in North America, these two are the only who are completely black and, perhaps for that reason, people tend to mix them up.
